Application for UI Designer

Respected Team,

My name is Fatema, and I am excited to apply for the position of UI/UX-Designer published on your website.

I am confident that I will contribute to your company's ongoing success and expansion.

During the past one year, I have been working on expanding my skills in the professional field.

My achievements include completing an Integration course in **German language at B1 Level** simultaneously doing an **Intensive UI /UX Design course** mastering the skills of **Wireframeing, Prototyping, Mockup's, User Testing, Branding, User Persona's analysing & Responsive Designing**, completing **3 minor & 3 major** projects. I was Really happy to share my newly developed projects with some of the experts in the field & receive their valuable feedback on the same which contributed a lot in developing a good portfolio.

Just like your company, I am always **eager to grow**.

As a Designer, I'd apply my **creative skills** and **design sense** in developing successful projects & delivering best possible results. **The balance between User Research & ongoing Industry standards** & then Developement of projects based on that will be my main focus.

I hope that the position will give me the opportunity to work in a focused and productive manner in a team, to be able to grow from criticism and feedback and, of course, to have a sense of achievement. I would be very happy to convince you in a personal interview.

If you have any further questions, please do not hesitate to contact me.

Looking forward to hearing a positive reply from your side.

Best regards,
Fatema Ali
